Tom Runia

Updated: November, 2019

PhD candidate, QUVA Deep Vision Lab
C350.A, Informatics Institute, University of Amsterdam
Science Park 904, 1098XH Amsterdam, The Netherlands
email: tom.runia@gmail.com
web: tomrunia.github.com

Education

University of Amsterdam — Amsterdam, The Netherlands
PhD candidate in Computer Science — since Feb 2016
Advisors: Cees Snoek and Arnold Smeulders

Delft University of Technology — Delft, The Netherlands
MSc. in Computer Science — Aug 2013 – Aug 2015
Graduated with distinction

Delft University of Technology — Delft, The Netherlands
BSc. in Applied Physics — Aug 2008 – Jun 2012

Professional Experience

Research Intern (Amazon.com) — Seattle, USA
Summer internship at Amazon AI — Jun 2019 – Sep 2019
Research on unsupervised video representation learning using bidirectional GANs.

Research Intern (TomTom) — Eindhoven, The Netherlands
Internship in the Autonomous Driving team — Nov 2014 – Aug 2015
Research on high-speed objection detection with feature boosting for embedded devices.

Software Engineer (Dept) — Delft, The Netherlands
Part-time software engineer during my MSc. study — Oct 2013 – Apr 2015

Research Assistant (Delft Univ. of Technology) — Delft, The Netherlands
Software engineer in the Quantitative Imaging group — Jun 2012 – Oct 2012

Publications

Miscellaneous

- **Teaching**
  - **Deep Learning**, Master AI course, University of Amsterdam, 2017 & 2018
  - **Information Visualization**, Bachelor AI course, University of Amsterdam, 2016

- **Thesis Supervision**
  - Erik Stammes, "Weakly-supervised Semantic Segmentation" (MSc, ongoing)
  - Danny Dijkzeul, "Unsupervised Machine Translation" (BSc, 2019)
  - Bram Kooiman, "Semi-Supervised Audio Source Separation" (MSc, 2018)
  - Rijnder Wever, "Counting with Variational Autoencoders" (BSc, 2018)
  - Matthew van Rijn, "Imitation Learning for Drones" (BSc, 2017)
  - Michelle Appel, "Bitcoin Price Prediction using RNNs" (BSc, 2017)
  - Wout Kooijman, "Bitcoin Price Prediction using RNNs" (BSc, 2017)

- **Summer Schools**
  - International Computer Vision Summer School (Italy, 2017)
  - iV&L Summer School on Language and Vision (Malta, 2016)
  - Learning from Silicon Valley (USA, 2014)

- **Reviewer Activity**
  - **Conferences:** CVPR, ECCV, ICCV, ACM-MM, ICLR, NeurIPS
  - **Journals:** TPAMI, IJCV

- **Extracurricular Activities**
  - **Board Member**, Study Association for Applied Physics, 2012 – 2013
  - **Electronic Committee**, Study Association for Applied Physics, 2009 – 2012
  - **Editor in Chief**, Study Association for Applied Physics, 2010

- **Technical Expertise**
  - **Programming languages**: Python, Java, C++, C#, R, Lua, MatLab, JavaScript, Bash
  - **Software**: PyTorch, TensorFlow, Caffe, OpenCV, Git, LaTeX, Blender, AutoDesk 3ds Max
  - **Open source contributions:** github.com/tomrunia
